**Subject: Hurricane Katrina: Access to REMICADE**

Centocor, Inc. is committed to ensuring patients and caregivers displaced by the devastation caused by Hurricane Katrina continue to have access to REMICADE® (infliximab) therapy, regardless of their situation or location.

Because REMICADE is administered in the care of a medical professional, it is important that those affected by this disaster are provided with accurate and timely information about access to treatment.

As communication continues to be a challenge due to the magnitude of the situation and the multitude of shelters established across the country, Centocor has taken steps to accommodate patients and caregivers through the AccessOne<sup>SM</sup> program.

Recognizing your communication capabilities to your membership (e.g., website, email, newsletter, etc.) we request that the following information is displayed and disseminated for those seeking information about REMICADE.

---

**Hurricane Katrina: Access to REMICADE® (infliximab)**

If you are a patient or caregiver in need of access to REMICADE and are experiencing difficulty due to Hurricane Katrina, please contact AccessOne<sup>SM</sup> at 888-222-3771 for further information to assist you.

---

We thank you in advance for sharing this important information with those patients and caregivers that have been affected by this disaster.

Regards.
