What if I have insurance?
Anyone can use the card, but it can’t be combined with insurance. You can use it instead of insurance if:
- A drug isn’t covered by your insurance
- The insurance has no drug coverage
- There is a high drug deductible
- There is a low medicine cap which has been met
- There is a high copay and the card offers a better price
- You are in the Medicare Part D donut hole

The card can’t be used to lower a copayment.

What drugs are covered?
The card is good for prescription drugs, over-the-counter medicines and medical supplies if written on a prescription blank, and pet prescription medicines purchased at a pharmacy. You’ll save on most, but not all, prescriptions.
